What do I need to start sewing?

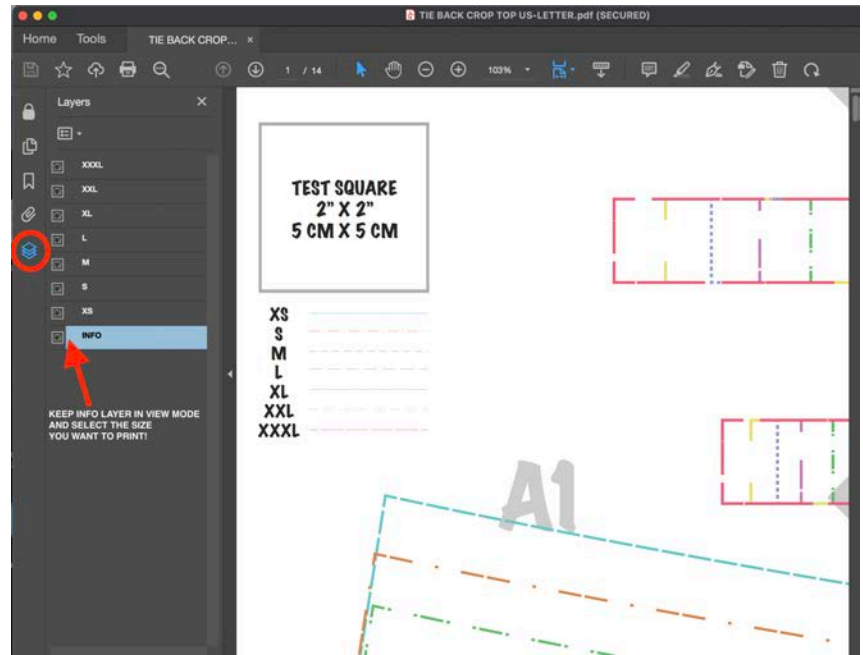

Fabric Recommendations: Non-stretch woven fabric, 100% polyester, viscose, cotton, linen, gauze, crepe de chine.

Printing Instructions

Let's print out the pattern!

The sewing pattern comes with 3 different printing options! The US Letter and A4 print is a tile version PDF that you can print out at home. The A0 version is used by a printshop to print on a single sheet of paper and saves time taping the separate pages together.

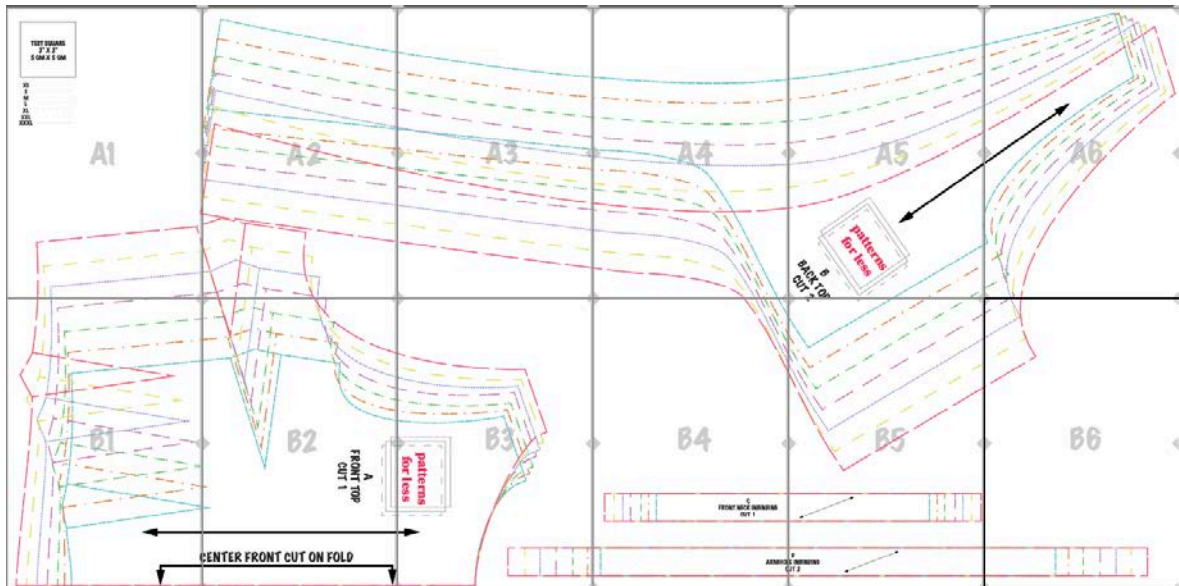

Additionally, you can use view mode to only select/print the size you are working on. Each pattern file is designed with layers of different sizes. There is an option to print only your size or all sizes based on your preference. Open the file in Adobe Acrobat and keep in legend layer.

If you print at home, then you need to trim each sheet by cutting off the top and excess margin. Tape each page together by row, and then attach the rows together. Use the diamond marks to align everything!

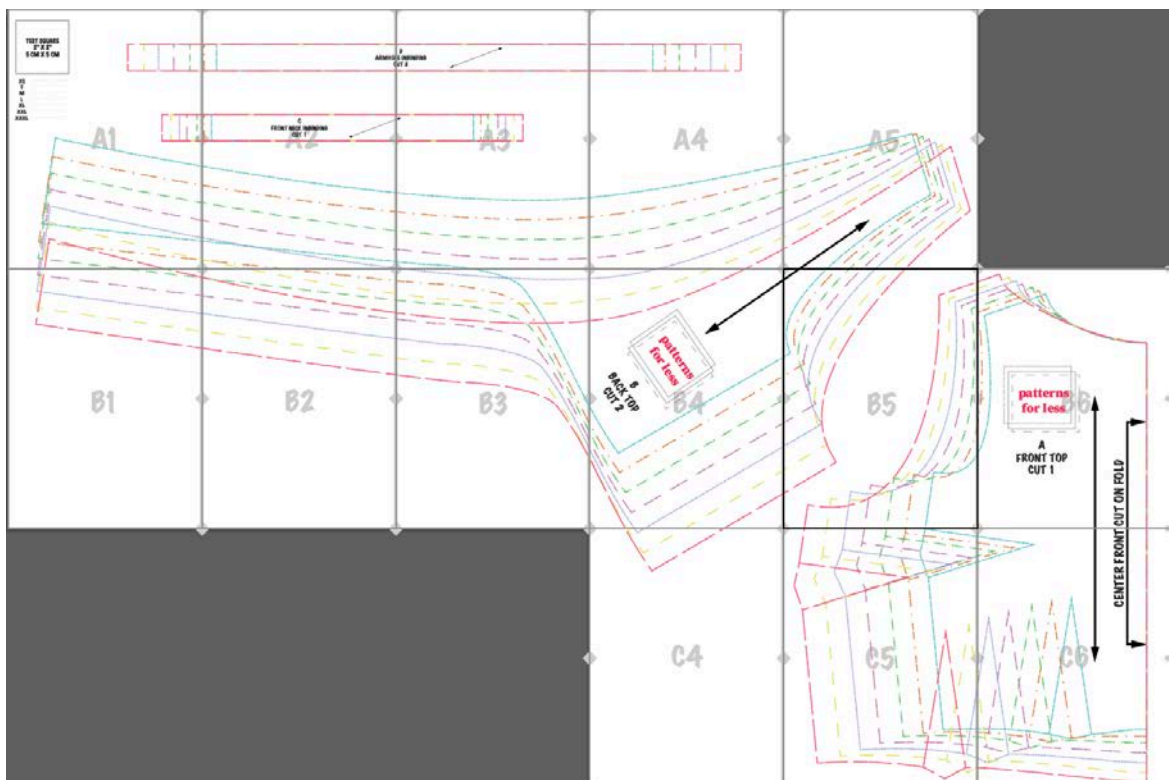

Always make sure to print on 100% scale.
(Do not 'fit to page' or reduce the size!)

There is a test square on the first page of the pattern.
Use as a scale to check if the dimensions are 5x5cm and/or 2x2".

Patterns

Tie back crop top pattern pieces include:

- A- Front Top, cut 1 on folded fabric
- B- Back Top, cut 2
- C- Front Neck Inbinding, cut 1
- D- Armhole Inbinding

$\frac{3}{8}$ " or 1cm seam allowance is already included unless indicated on the pattern or instruction book.

Sewing Instructions

Step 1- Cut out the dart from the paper pattern and layover on the wrong side of the Front Top (A). Mark the dart legs and dart point using chalk or water erasable pen.

Step 2- Sew the darts from the point to dart leg without backstitching. Finish the ends by hand tying with double knots. Press the waist darts facing toward the side seam and bust darts facing toward the hem.

Step 3- Overlock stitch around the Back Top (B) neckline, tie strap, and hemline.

Step 4- Fold the overlock stitch seams over $\frac{3}{8}$ " or 1cm width toward wrong side of the fabric and edge topstitch. Press lightly around the stitching line.

Step 5- Overlock stitch the hemline of Front Top (A) and fold the seam over $\frac{3}{8}$ " or 1cm width toward the wrong side of the fabric. Edge topstitch and press.

Step 6- Place the Front Neck Inbinding (C) right side facing the bodice and pin along the neckline. Sew along the pinned spot and press seam open. Stitch $\frac{1}{4}$ " or 0.6cm around the neckline, trim the seam allowance to $\frac{1}{8}$ " or 0.3cm, and then press seam open.

TIE BACK CROP TOP

Step 7- Fold the Front Neck Binding piece toward the inside and press. Double fold the inbinding piece to wrap around the edges and $\frac{1}{4}$ " or 0.6cm topstitch all around.

Step 8- Place Front Top (A) and Back Top (B) facing right sides together. Close the shoulder and side seams with $\frac{3}{8}$ " or 1cm straight stitch and overlock to finish. Press the seams towards the Back Top (B).

TIE BACK CROP TOP

Step 9- Join the ends of the Armhole Inbinding (D) and press the seam open. Place the Armhole Inbinding right side facing the armhole on the bodice and pin around. Stitch $\frac{1}{4}$ " or 0.6cm around the armhole, trim the seam allowance to $\frac{1}{8}$ " or 0.3cm, and then press seam open.

Step 10- Fold the Armhole Inbinding piece toward the wrong side of the fabric and press. Double fold the inbinding piece to wrap around the edges and topstitch $\frac{1}{4}$ " or 0.6cm away from the folded line.

TIE BACK CROP TOP

Step 11- Give a nice press all around and enjoy your new tie back crop top to pair with fun denim shorts!

Sewing Glossary

Back Stitch

When you start a new seam or finish the seam, always backstitch by hitting the reverse button on your sewing machine. Back stitching consists of 3-4 stitches to lock the stitching and prevent unraveling.

Bias Tape

Bias tape is widely used in neckline, spaghetti strap, and other garment finishings. Prepare the bias strap by cutting in half diagonally to give a nice stretch. When needing to make a long continuous bias tape, sew the diagonal pieces together as long as you need.

Buttonholes

There are various styles of buttonholes you can create with your sewing machine. For cleaner look, add interfacing and sew over the buttonhole more than once to create nice tight holes.

Use a buttonhole foot by inserting the button in the back of the foot, and snap the foot into place. Pull the button hole lever down, and select the buttonhole stitch on your machine. Press the pedal and stitch away, your machine will automatically go through the steps to make an accurate buttonhole.

Edge Stitch

Edge stitches are typically used to decorate or emphasize the original seam line. To achieve clean edge stitch, use a special footer to sew close to the edges without gliding off. Sew slowly to control the fabric.

Flat Felled Seam

Flat felled seam or jeans seams is a great way to sew heavy duty fabric or bottoms to strengthen the garment.

Sew the fabric right sides facing each other. Trim one of the seam allowances in half. Turn the raw edge under and fold over to hide the half cut edge. Topstitch down the enclosed seam allowance.

French Seam

When sewing silk or chiffon with delicate fabrication, French seams are a great way to achieve an excellent quality finish.

Place wrong sides of fabric facing each other and sew $\frac{1}{4}$ " or 0.6cm. Press the seam and fold the fabric along the seam line. Enclose the seam by stitching $\frac{1}{4}$ " or 0.6cm from the folded edge.

Hand Basting

Basting or running stitches are simple hand stitches to use instead of pinning or gathering. Alternatively, you can increase the stitch length and loosen tension on your sewing machine to create a basting look.

Open Seam

Open seams are a technique used to make the seams clean and flat. It can be used for CF, CB, or side seams. Overlock both raw edges first, and then stitch the 2 pieces together to iron the seam open.

Overlock

Overlock stitches help to bind raw cut edges to prevent from fraying. This technique is mostly accomplished by overlock machine, serger, or your home sewing machine with overlock stitch setting.

Overlock machines have 2 to 3 needles and 2 top threads and lower threads to braid and stitch, which results in a variation of blanket stitch. The knife blade cuts the fabric edge to give a clean overlock stitch.

Pivoting

Use the pivoting method when sewing corners or at an angle such as pocket corners, tip of collars, v-neckline, etc.

Execute the technique by leaving the needle in the fabric, lift the footer, and then turn the fabric as much as you need. Continue to sew by lowering the footer again, then stitch in the new direction.

Pressing

Steam and iron with pressure after every stitch you make in the garment. Pressing helps to relax the threads and finish the seams cleanly. Be aware to avoid extreme steam on natural fabrics such as cotton and linen due to the risk in shrinkage.

Right side - Wrong side

All fabrics have a right side and wrong side. The right side is mostly worn visibly to the outside whereas the wrong side should be on the inside of the garment. Some fabrics are easy to identify the right or wrong side by sheen or texture, but some might look identical both right and wrong side.

To find out the right and wrong side of the fabric, look for little pinholes along the selvage. The clean side of the holes is the right side.

Seam Allowance

The seam allowance or SA is the extra fabric next to the stitch line all around each pattern piece. The additional space allows us to sew everything together.

Depending on the seams and styles, the seam allowance is usually ($\frac{1}{4}"$, $\frac{3}{8}"$, $\frac{1}{2}"$) or (.6cm, 1cm or 1.2cm) width. Always refer to the pattern and instruction booklet for accurate seam allowance amount.

Topstitch

The purpose of top stitches are to add strength to the garment. Iron the seam allowance to the side. Straight stitch $\frac{1}{8}$ " or 0.3cm, or $\frac{1}{4}$ " or 0.6cm away from the original seam to sew the right side and seam allowance together.

Twin Needle

Twin needles are used in knit casual or sportswear for clean finishing without needing a double fold hemming method. The 2 top threads and 1 bobbin thread create parallel topstitch on the right side of the fabric and zigzag stitch on the wrong side of the fabric.
